

Name:

How Full Is Your Bucket?

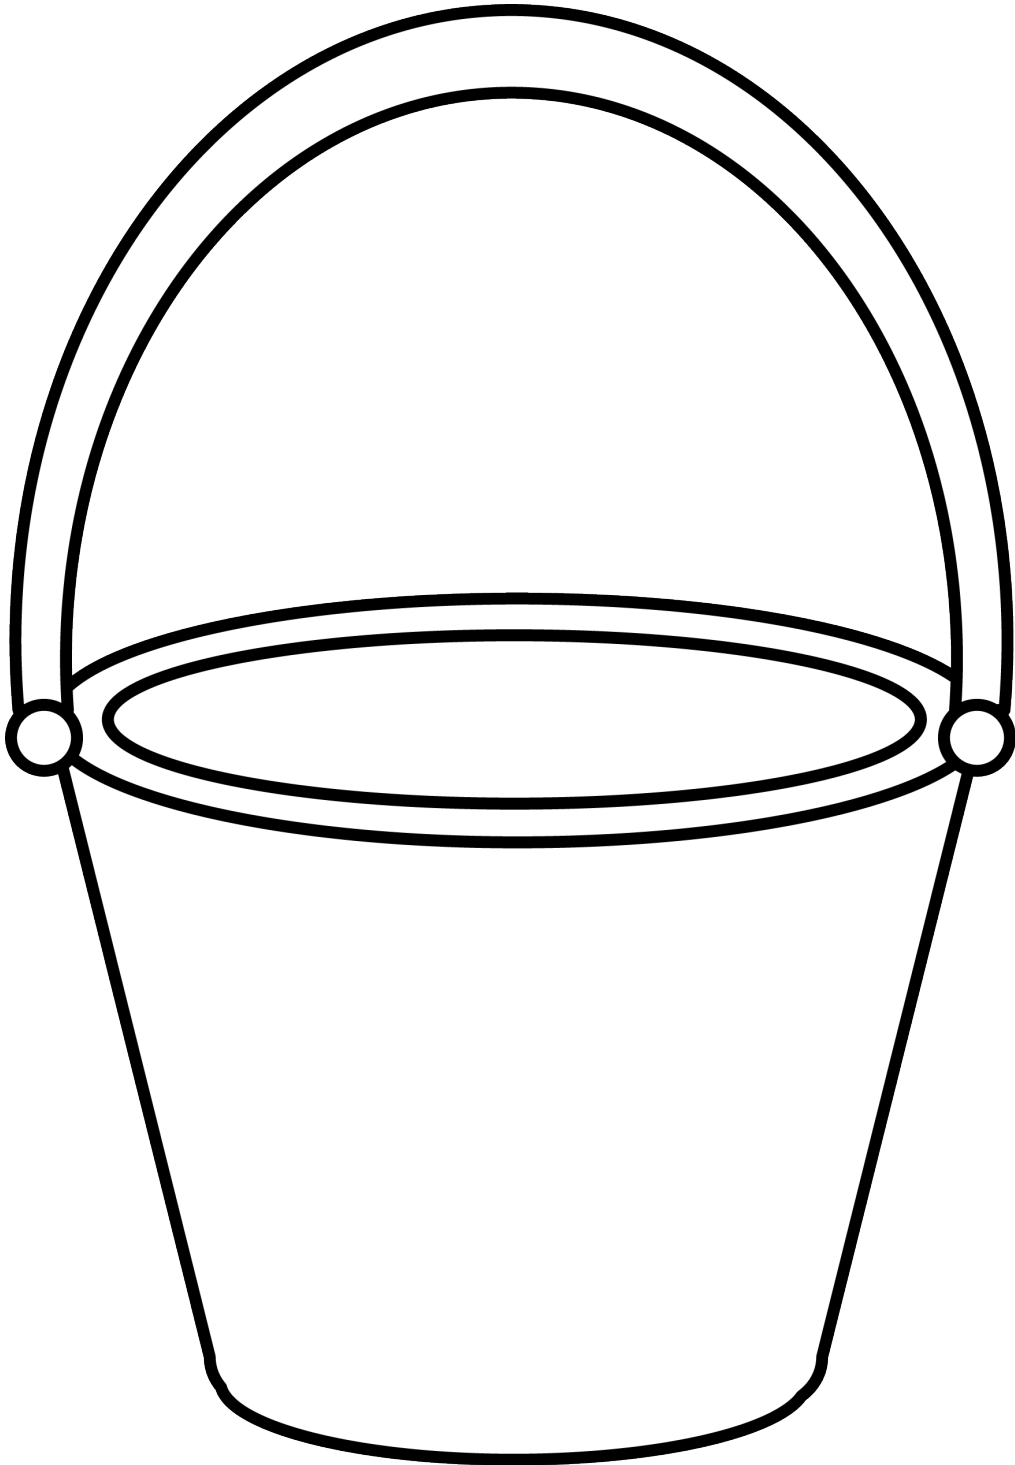

Teacher Directions

This is an activity to help your students think about how full their bucket is and why. Use the bucket picture to have your students fill in how full their bucket is. They can use stickers, add drawings of hearts/stars/etc., shade with crayons or colored pencils, or any other way you want them to fill their bucket. Then, use the writing page to have them explain why their bucket is that full. Enjoy!
